Highway Premium Air Disc Pads

Marathon has expanded its DiscStar product line to address the continued growth of disc brakes in the heavy-duty market. Disc Star Highway Premium (DSHP) is a high performance commercial vehicle disc pad designed specifically for air disc brakes. DiscStar Highway Premium pads were created for on-highway truck, tractor steer and drive axles, motor coaches, and school buses. This premium low-metallic material is rated for 23,000 lbs. and provides long pad life, quiet stopping and high shear resistance.

In addition, DiscStar Highway Premium features exceptional rotor compatibility and low rotor wear, showing up to 33% less brake rotor wear than the leading OEM linings. By using a proven, reliable attachment method, DiscStar disc pads ensure a high mechanical bond between the friction material and the steel backing plate. As a result, you can rely on DiscStar to provide dependable stopping power, a long pad and rotor life, and significant noise reduction.

Highway Premium Delivers

- Ideal for on-highway commercial applications, including truck, motor coach and school bus
- Dependable stopping power
- Longer pad and rotor life
- Significant noise reduction
- High shear resistance
- Rapid heat dissipation
